

Master Stand (Black Aluminum)

MU006AB0000

Description

One of the most robust compact stands is our Master Stand, intended for both location and professional studio services. The opening of the three .9" (22 mm) round section legs marks the diameter of 3' 7.3" (110 cm), making this master stand suitable for supporting monolights with softboxes in the studio or in structured locations, and medium-sized LED luminaires for video and film productions.

The moderate weight of this compact stand, in the electro-welded aluminum tube version, guarantees handling and transportability with stability and safety.

Master Stand sleeves and crossbars are made of die-cast aluminum. No element is produced in thermoplastic material, except for the knobs.

The clamping joints are equipped with a device that guarantees the locking of the tube with a minimum rotation of the knob. The legs of the base are independently adjustable, ensuring an extraordinary flexibility in opening them.

It is possible to install the wheels for handling and the pneumatic system (air cushion), to control the descent of the rods under load.

Features

| | |
|----------------------------------|---|
| CLOSED LENGTH | 41.3 in (105 cm) |
| MINIMUM HEIGHT | 49.2 in (125 cm) |
| MAX HEIGHT | 142 in (360 cm) |
| LOAD AT MAXIMUM EXTENSION | 22 lbs (10 kg) |
| WEIGHT | 5 lb 8 oz (2.5 kg) |
| MATERIAL | Aluminum |
| COLOR FINISH | Black |
| SECTIONS | 4 |
| RISE NUMBER | 3 |
| SECTION DIAMETER | 1.38/1.2/1/.79 in (35/30/25.4/20 mm) |
| LEG SHAPE | .866 in (22 mm) diameter |
| MAXIMUM OPENING | 43 in (110 cm) |
