

Triple Riser Combo Stand (Chrome Steel)

MU220SC000

Description

This Triple Riser Combo Stand is a heavy stand made of an aluminum (black) or steel (black or chrome) tube, 2"/1.4" (50/35 mm) diameter, with 1.2" (30 cm) square section legs. This stand was originally designed for rental companies and suitable for supporting headlights large in size at over 13' (4 m) high, reachable with three extensions.

The joints of the Triple Riser Combo Stand are independently adjustable, ensuring flexibility in opening the base. The level leg allows you to adapt to uneven support surfaces. The stand is equipped with a universal head with .6" (6 mm) male and 1.1" (28 mm) female spigots.

The Triple Riser Combo Stand crosses and sleeves are made of die-cast aluminum. No element is produced in thermoplastic material. The joints between legs and crosses are made with self-locking screws and nuts, instead of rivets, to facilitate maintenance. The connecting rods of the lower cross are doubled to ensure maximum stability.

The clamping joints are equipped with a device that guarantees the tube locking with minimal rotation of the knob. The closure of the stand is regulated by a safety system consisting of a rubber spacer, which prevents accidental injury of fingers during the rods' descent.

It is possible to install the wheels for handling, and the pneumatic system (air cushion) to control the descent of the rods under load. The stand can be customized with company motif and colors, with the insertion of anodized aluminum spacers in the level head and legs.

Features

CLOSED LENGTH	55 in (140 cm)
MINIMUM HEIGHT	63 in (160 cm)
MAX HEIGHT	167.3 in (425 cm)
LOAD AT MAXIMUM EXTENSION	88 lbs (40 kg)
WEIGHT	26 lb 7 oz (12 kg)
MATERIAL	Steel
COLOR FINISH	Chrome
SECTIONS	4
RISE NUMBER	3
SECTION DIAMETER	2/1.77/1.6/1.38 in (50/45/40/35 mm)
LEG SHAPE	1.2 x 1.2 in (30x30 mm)
MAXIMUM OPENING	51 in (130 cm)
LEVELING LEG	Yes
SPIGOT TYPE	Type 1
WHEELS	Available
AIR CUSHIONED	Available
